CLAIMS NOTICE

Recently I have noticed a lot of fire rings around where we are digging. San Bernardino County requires everyone to have a fire permit but it is not enforced too much. However that doesn't mean we can take advantage of it either. As so this date there will not be fires where we are digging. We have a camping area with fire rings and that is where I want the fires to be. If you are going out to a claim and want a fire take your own fire contender with you and take it home also. **DO NOT BUILD A FIRE PIT IN A HOLE WHERE SOMEONE HAS DUG.** If they come back and want to dig they don't want ashes in their hole. We have 3 fire rings in the camping area for people to use. **DO NOT HAVE FIRES WHEN IT IS WINDY.** And do not set the mesquite bushes on fire. The BLM and state officials are looking for a reason to kick us out of our claims in coolg

Prez Says-

Thanks again to Tom O'Donnell for coming all the way from Randsburg, CA to share his knowledge and thoughts about "Extraterrestrial Mining". It was quite thought provoking. Answer to the Trivia Question: Who was the first Drywasher's Gazette Editor? **Dick Haskell.** Dick was one of the founding members and he wrote some great articles (P.S. I typed the newsletter for him). There was great interest in continuing to hold the Rendezvous at the Rancho Jurupa Park in Riverside, so I've put in a request to reserve the primitive area again for Oct 25, 26 & 27. Be sure to save the date. Also, we will be hosting a booth on Sept 21st at Old West Days in Randsburg. Be sure to plan to attend, it is great fun.

Always looking for that "Big Gold", Lorraine Frost

California Department of Fish and Wildlife News Release

Date: June 28, 2013

Media Contact: Jordan Traverso, CDFW Communications, [\(916\) 654-9937](tel:9166549937)

Emergency Rulemaking Approved for Suction Dredge Mining

The Office of Administrative Law (OAL) today approved an emergency rule making to amend an existing regulation defining suction dredge mining. The California Department of Fish and Wildlife proposed this action earlier this month to close an apparent loophole that may have allowed activity that goes against the spirit of the legislative moratorium prohibiting the use of any vacuum or suction dredge equipment for instream mining.

The new regulation as approved by OAL and filed with the Secretary of State defines suction dredging as the "use of a suction system to vacuum material from the bottom of a river, stream or lake for the extraction of minerals."

Under current state law in effect since 2009, the use of any vacuum or suction dredge equipment for instream mining purposes is prohibited.

Importantly, nonmotorized recreational mining activities, including panning for gold, are not prohibited or restricted under the new regulation or the statutory moratorium that currently prohibits suction dredging in California.

For specific regulatory language of the new rule, or additional information about the moratorium and suction dredge mining in California, please visit www.dfg.ca.gov/suctiondredge.

We hope to see you out at our upcoming outings, bring the family and friends with you!
Happy diggin' to you all!
Kristie

BLOOD BANK NEWS “MVP”

I spoke to LifeStream since, I was not receiving monthly reports. Sharon indicated that they no longer send reports on a monthly basis; therefore I would ask those who make a donation to send me an email or a copy of their donation so that I can recognize you in the newsletter. At the end of the year, I will ask for a final accounting for the entire year so that we can recognize all our volunteers. Your thoughtfulness is greatly appreciated.

In addition, Sharon provided me with information on how to draw from our account should you need access to blood credits. If you need to use blood and your insurance does not cover the cost, call me. LifeStream will need a copy of your hospital bill showing that the blood was not covered by insurance and then they will cover the cost based on how many credits we have on account. So far this year, we have 12 credits up through May 7, 2013. Our goal is 50 for the year – so please consider donating. You can check for local donation centers or events at <https://www.lstream.org/>

The need is constant, the process is simple, and the results are priceless.
